OUR VILLAGE | CHALOKLUM

About Us

CHALOKLUM (ฉะลอหล้า) | one of the oldest villages on Koh Phanagn that still keeps its charm alive over a hundred years. Our village is well known for its authenticity of being a fishing village that feeds the island with its rich resources. Chaloklum has become the diver's paradise over recent years, bringing numbers of dive school, expat and eco travelers to this little town.

As the island has been developed quickly by the mass tourism, it seems like the time here is preserved and the vibes of our small town has never been changed. Its location is also set next to the beautiful unspoiled beaches, a dramatic jungle, waterfalls and mountains where families will enjoy all activities together.

FISHERMAN VILLAGE LIVING - Living Locally -

This is the ideal place for those who are looking for authentic Thai holiday experience with local islanders.

You will find the small sacred temple where it holds the hearts of Buddhism and the hearts of villagers together, the local fishermen leaving the shore and come back at sunset with the catches of the day, the kids jumping off the pier into the blue sea after school and the busy monkey on the way to work in the morning at one of the coconut plantation in the village.

These might be different scenes from your home or your usual vacation, but these are ordinary and most simple scenes in our village life for years.

Open your heart, take time and blend in :)

LOCAL EXPERIENCE & COMMUNITY SUPPORT

Silan provides home-comfort facilities and atmosphere within our residence while connecting you to other services in the village.

We support and recommend local businesses - like small authentic restaurants, laundry shop, travel agency and local dive shops as part of services from our residence.
